

Industrial Space & Infrastructure

Enough space for new enterprises. The AREA m styria offers a multitude of fully developed plots. Those positioning themselves here will determine the future of materials.

Prepared to meet every need. New investors will find ideal conditions in the AREA m styria. We offer fully developed properties for industrial and commercial use, quick access to extended motorways and highways as well as optimum connections to rail and air transport.

Nearly 160 hectares in the region are zoned as building land for industry. Currently more than 50 hectares are available with outstanding accessibility to infrastructure facilities for new endeavours such as the establishment of companies. Some of the most well-developed and professionally managed areas for industrial parks and technology parks are counted among these areas.

Do you have any questions about the industrial space being offered or about the infrastructure of the AREA m styria? Leopold Pilsner, MBA will be pleased to advise you! **You also have the opportunity online to have a quick overview of the industrial space available in our region. Please use the inquiry button to gain access to our database.**
